

Atelier/Workshop no 6

- Meaningful Human-Machine Interaction: Some Suggestions from the Perspective of Augmented Intelligence

Martina Properzi

- Mutual Incorporation, Intercorporeality, and The Problem of Mediating Systems

Robin L. Zebrowski

Rethinking (dis)fluency within the scope of interactional linguistics and gesture studies

Loulou Kosmala

Chairperson : Mindaugas Briedis

Questions

- What is so “direct” about interactions?
- What is “meaningful” interaction?
- How can we understand “augmentation” in natural an/or artificial interactions?
- What may be the status of “body” in future interactions?
